

Industrial Centrifugal Pump

This centrifugal pump is designed for industrial applications. It is suitable for demanding tasks.

Product Overview

Industrial Centrifugal Pump Overview

This industrial centrifugal pump is engineered for high-performance fluid handling and flow regulation in demanding pipeline applications. Built with robust materials to withstand rigorous operating conditions, it ensures reliable performance and consistent throughput. Its design prioritizes durability and ease of manual operation, making it an essential component for critical industrial systems.

Technical Specifications

Operation

Manual • Handwheel Operated

Nominal Diameter	DN50
Pressure Rating	PN1.6
Application Suitability	Pipeline Flow Regulation, Industrial Fluid Handling
