

# Industrial Centrifugal Pump

This centrifugal pump is designed for efficient fluid transfer in industrial applications. It is suitable for chemical, pharmaceutical, and food processing industries.

## Product Overview

### Industrial Centrifugal Pump

This industrial centrifugal pump is engineered for high-efficiency fluid transfer across demanding sectors including chemical, pharmaceutical, and food processing. Featuring a robust stainless steel construction coupled with a reliable electric motor, it ensures durability and consistent performance. The unit is available in multiple configurations to accommodate varying flow rates and pressure requirements.

## Technical Specifications

### Suitable Industries

- Chemical Processing
- Pharmaceutical Manufacturing
- Food Processing

### Key Features

Robust Design • Electric Motor Coupled • High Efficiency

### Available Models

DZA Series, GZA Series

### Material

Stainless Steel
