

Industrial Centrifugal Pump

This centrifugal pump is designed for industrial applications. It features a stainless steel pump housing and an electric motor for fluid transfer.

Product Overview

Industrial Centrifugal Pump

This high-performance centrifugal pump is engineered for demanding industrial fluid transfer applications. Featuring a robust stainless steel housing and a reliable electric motor, it is built to withstand rigorous operating environments. Its design ensures consistent flow rates and durability, making it an essential component for various industrial processing systems.

Construction

Color Finish

Blue Motor • Metallic Housing

Housing Material	Stainless Steel
Motor Type	Electric Motor

Applications

Primary Usage	Fluid Transfer, Industrial Processing
