

# Industrial Centrifugal Pump

This centrifugal pump is designed for industrial applications. It is suitable for transferring fluids in various industrial processes.

## Overview

### Industrial Centrifugal Pump

This robust industrial centrifugal pump is engineered for efficient fluid transfer across a wide range of demanding industrial processes. Featuring a durable red-painted exterior and reliable flanged connections, it is designed for seamless integration into existing piping systems. Powered by an integrated electric motor, this unit offers consistent performance and reliability for professional fluid handling applications.

## Technical Specifications

### Design Features

- Heavy-duty construction
- Corrosion-resistant paint finish
- Standardized flanged connections

Pump Type	Centrifugal
Connection Interface	Flanged
Power Source	Electric Motor
Application Suitability	Industrial Processing, Fluid Transfer
