

Industrial Centrifugal Pump

This centrifugal pump is designed for industrial applications. It is suitable for a wide range of fluids and operating conditions.

Product Overview

Industrial Centrifugal Pump

This high-performance industrial pump is engineered for demanding fluid handling applications. Built with robust materials to ensure long-term durability, it provides reliable operation across various industrial environments. Its design focuses on efficiency and precision, making it an ideal choice for chemical processing and water treatment sectors.

Technical Specifications

Construction Material	Stainless Steel
Actuator Type	Manual Handwheel

Application Areas

Suitable Industries	Chemical Processing, Water Treatment, Industrial Fluid Handling
---------------------	---

Key Features

Performance Highlights

1 High

Corrosion Resistance

1 Precise

Flow Control
