

Industrial Centrifugal Pump

This centrifugal pump is designed for industrial fluid transfer. It features a direct-drive configuration and durable construction for reliable performance.

Overview

Industrial Centrifugal Pump

This industrial centrifugal pump is engineered for high-performance fluid transfer in demanding environments. It features a robust direct-drive configuration, ensuring reliable operation and longevity. Mounted on a sturdy baseplate, the unit is designed for stability and ease of installation in various industrial settings.

Technical Specifications

Configuration	Direct-drive
Mounting	Baseplate mounted
Construction Materials	Durable Industrial Alloy, Reinforced Housing

Applications

Suitable Applications

- Fluid transfer
- Industrial processing
- General pumping tasks
