

# Industrial Communication Transmitter

This is a communication transmitter. It is designed for industrial applications.

## Product Overview

### Industrial Communication Transmitter

This industrial communication transmitter is designed for robust performance in demanding professional environments. It offers versatile installation options, supporting both integrated and separate configurations to ensure seamless system compatibility. Precision-engineered for accuracy, this device provides the reliable data transmission necessary for complex industrial automation and monitoring tasks.

## Technical Dimensions

### Housing and Mounting Specs

Component	Dimension Reference
Housing Width (mm)	120
Mounting Height (mm)	380
Sensor Depth (mm)	160
Bracket Span (mm)	220
Supported Configurations	Integrated, Separate
Measurement Unit	Millimeters (mm)
