

Industrial Cooling Fan

This high-performance cooling fan is designed for industrial and machinery applications. It features aerodynamically optimized blades and durable construction for long-lasting operation.

Product Overview

Industrial Cooling Performance

This high-performance cooling fan is specifically engineered for demanding industrial and machinery applications. Featuring an aerodynamically optimized blade design, it ensures efficient airflow to protect critical electronic components and heat-sensitive equipment. Its robust square frame construction provides the durability required for long-term reliability in harsh industrial environments.

Technical Specifications

Primary Applications

- Machinery Cooling
- Electronic Component Protection
- Heat-Sensitive Equipment Cooling
- General Industrial Ventilation

Design Features	Square Frame, Aerodynamic Blades, Industrial Grade, Durable Construction
Mounting Type	Standard Square Frame with Mounting Holes
