

Industrial Cylinder Vacuum Cleaner

This cylinder vacuum cleaner is designed for industrial and commercial applications. Its robust construction ensures durability, while its powerful motor provides efficient suction for thorough cleaning of various surfaces.

Product Overview

Industrial-Grade Cleaning Performance

This high-performance cylinder vacuum cleaner is engineered specifically for demanding industrial and commercial environments. Its robust construction ensures long-lasting durability, while the powerful motor delivers efficient suction for thorough cleaning across diverse surfaces. Designed for high-capacity use, it minimizes downtime by reducing the frequency of emptying, making it an ideal solution for large workshops and industrial facilities.

Design & Features

Included Accessories

- Crevice tool
- Brush heads

Design Type	Cylinder Vacuum
Mobility	Wheeled, Portable, Maneuverable

Application

Ideal Environments

Industrial • Commercial • Workshops • Large Areas
