

Industrial Diesel Generator

This generator is a robust and reliable power solution designed for various industrial applications. It features a heavy-duty engine coupled with a high-efficiency alternator, providing stable and consistent power output.

Overview

Industrial Diesel Generator

The 105 Series generator is a robust and reliable power solution designed for various industrial applications. It features a heavy-duty engine coupled with a high-efficiency alternator, providing stable and consistent power output. Equipped with advanced safety features and an intuitive control panel, this unit is suitable for prime power, standby power, and peak shaving applications.

Technical Specifications

Power Output

0 KW

Common Power

Dimensions and Weight

Parameter	Value
Unit Size (L*W*H)	N/A mm
Net Weight	N/A kg

Features

Optional Accessories

- Sound attenuation enclosures
- Automatic transfer switches
- Remote monitoring systems

Safety Protections

Over-speed protection, Low oil pressure shutdown, High coolant temperature shutdown
