Overview

Industrial Drip Pump for Fluid Transfer

The RTDZ series is a high-performance industrial pump engineered for reliable fluid transfer in demanding environments. Featuring robust construction and a powerful motor, these pumps ensure consistent performance and operational longevity. The compact design allows for seamless integration into diverse industrial systems, offering a cost-effective and dependable solution for fluid handling requirements.

Performance Data

Technical Specifications by Model

Model	Capacity (m3/h)	Head (m)	Power (kW)	Speed (r/min)
RT-100DZ	120	40	15	2950
RT-125DZ	180	40	18.5	2950
RT-150DZ	248	40	22	2950
RT-200DZ	410	40	30	1470
RT-250DZ	460	50	55	1480

Key Features

Industrial Grade, Easy Installation, Compact Design, Robust Construction
