

Industrial Drum Fan with Adjustable Tilt

This high-velocity drum fan is designed for industrial and commercial applications. It features a robust steel frame and a powerful motor to provide high-volume air circulation.

Overview

High-Velocity Industrial Cooling

This industrial drum fan is engineered for high-volume air circulation in demanding environments such as warehouses, workshops, and large open spaces. Featuring a robust steel frame and a 3-blade propeller, it provides efficient and powerful cooling performance. The unit is designed for maximum portability with integrated wheels and offers flexible directional airflow through its adjustable tilt mechanism.

Technical Specifications

Available Sizes

- 24" (600mm)
- 30" (750mm)
- 36" (900mm)

Motor Options

AC Motor, DC Motor

Compliance & Quality

Certifications

CE Approved • UL Approved

Design & Build

Blade Configuration

3 qty

Propeller Blades

Frame Material

Robust Steel

Mobility & Adjustment

Portability Features

- Integrated wheels for easy transport
- Adjustable tilt for directional cooling
