

Industrial Electric Air Circulation Fan

This industrial-grade electric fan is designed for robust air circulation in large spaces. It features a heavy-duty metal construction with adjustable height and tilt for directional airflow.

Product Overview

Industrial-Grade Air Circulation

This industrial-grade electric fan is engineered for robust air circulation in demanding environments such as warehouses, factories, and workshops. It features heavy-duty metal construction and a protective circular fan guard to ensure durability and safety during operation. With three aerodynamically designed blades and a high-performance motor, it provides reliable airflow, while the adjustable height and tilt settings allow for precise directional control.

Design & Build

Construction Material	Heavy-duty metal
Safety Features	Circular fan guard, Industrial-grade housing

Performance

Adjustability

- Adjustable height
- Adjustable tilt

Number of Blades	3
------------------	---

Applications

Suitable Environments

Warehouse • Factory • Workshop • Commercial Space
