

Industrial Electrical Connector with Hinged Cover

This industrial electrical connector is designed for heavy-duty applications, featuring a robust construction with a red and white housing. Its hinged cover protects the connector from dust and moisture when not in use, ensuring reliable power transmission.

Product Overview

Industrial-Grade Connectivity

This industrial electrical connector is engineered for heavy-duty applications requiring secure and reliable power transmission. Featuring a robust, high-visibility red and white housing, it is designed to withstand the rigors of demanding industrial environments. The integrated hinged cover ensures optimal protection against dust and moisture when the connector is not in use.

Technical Specifications

Protection Features

Hinged Cover • Dust Resistant • Moisture Resistant

Housing Colors

Red, White

Design & Construction

Application Environment

Heavy-duty industrial settings

Connection Interface

Multi-pin configuration
