

Industrial Electrical Plug

This is an industrial electrical plug designed for heavy-duty applications. The plug features three prongs and a ribbed body for enhanced grip and insulation.

Product Overview

Industrial-Grade Power Solution

This industrial electrical plug is engineered for high-demand environments requiring robust and reliable power connections. Featuring a durable ribbed housing design, the unit provides enhanced grip and superior insulation for safety in challenging settings. Its construction ensures high performance and consistent power delivery for critical industrial equipment.

Technical Specifications

Color Classification

- Yellow Housing
- White Body

Connection Configuration

3-Prong Industrial Standard

Design & Ergonomics

Ribbed Grip, Heavy-Duty Housing, High Insulation

Application

Industrial Applications

Heavy-Duty Machinery • Industrial Power Systems • Professional Infrastructure
