

Industrial Engine with Tapered Roller Bearing

This robust engine is designed for diverse industrial and agricultural applications. It features a tapered roller bearing design, ensuring smooth operation and an extended lifespan.

Product Overview

Industrial Engine EM170A

The EM170A is a robust and reliable engine engineered for diverse industrial and agricultural applications. Featuring a specialized tapered roller bearing design, this unit ensures smooth operation and an extended service life. It is built for durability and ease of maintenance, making it a dependable power source for demanding tasks in harsh environments.

Technical Specifications

Model Number	EM170A
Bearing Type	Tapered Roller Bearing

Key Features

Performance Benefits

- Smooth operation
- Extended lifespan
- Dust and debris protection
- Consistent performance in harsh conditions
- Easy maintenance

Design Highlights	Compact Design, Efficient Fuel Consumption, High-Quality Air Filtration, Industrial Grade
