

Industrial Evaporative Air Cooler 16000 CFM

This industrial air cooler provides efficient cooling for large spaces. It features a 100L capacity, 3-speed settings, and a high-density water curtain for optimal air cooling.

Overview

The industrial air cooler features a robust design with a digital control panel and visible water level indicator for efficient operation.

Industrial Evaporative Air Cooler

This high-performance industrial evaporative air cooler is designed for effective cooling in large spaces ranging from 50 to 80 square meters. Featuring a 100% copper motor and a 16000 m³/h airflow capacity, it ensures reliable and powerful air circulation. Equipped with convenient features like a touch screen, remote control, and an 8-hour timer, this unit is built for ease of use in demanding environments like factories and warehouses.

Performance

Airflow Capacity

16000 m³/h
Airflow

380 W
Cooling Power

Applying Space

80 m²

Technical Specifications

Water Tank Capacity	100 L
Motor Type	100% copper motor
Speed Settings	3

Features

Key Features

- Touch screen control
- Remote control included
- 8-hour timer
- Automatic blinds for wide-angle air supply
- High-density water curtain
- 3-sided air intake
- Portable design with casters

Included Accessories

2 Ice boxes, Remote control
