

Industrial Flanged Check Valve 4-6in

This red-painted valve is designed for industrial applications. It features a flanged connection on both ends for secure and reliable installation in pipelines.

Product Overview

Industrial Flanged Check Valve

This industrial flanged check valve is engineered for reliable flow control and backflow prevention in demanding pipeline systems. Featuring a robust, red-painted construction, it ensures durability and long-term performance in various industrial processes. The unit is designed with flanged connections on both ends to facilitate secure and efficient installation.

Specifications

Compliance Standard

BS Standard

Size Range

4-6 inches

Connection Type

Flanged

Application

Industrial, Pipeline Systems, Fluid Management
