

Industrial Floor Squeegee with Rubber Blade

This heavy-duty floor squeegee is designed for industrial and commercial applications. It features a durable rubber blade for effective water and liquid removal.

Product Overview

Heavy-Duty Industrial Squeegee

Designed for demanding industrial and commercial environments, this floor squeegee provides effective liquid removal for large surface areas. It features a robust frame construction and a high-durability rubber blade, ensuring longevity under heavy use. The unit is compatible with standard handle sockets, making it a versatile tool for factories, warehouses, and garages.

Construction & Materials

Frame Material	Orange Powder-Coated Steel, Galvanized Steel
Blade Material	Durable Rubber

Usage & Compatibility

Recommended Applications

- Factories
- Warehouses
- Garages
- Large Surface Areas

Handle Attachment	Standard handle socket
