

Industrial Floor Ventilation Fan

This industrial floor fan provides powerful ventilation for large spaces. Its robust construction and angled blades ensure efficient air circulation in demanding environments.

Product Overview

Industrial Ventilation Solution

This industrial floor ventilation fan is engineered for heavy-duty airflow requirements in professional environments. Featuring a robust construction with a durable vertical stand and a stable base, it is built to withstand rigorous use in warehouses and commercial facilities. The high-efficiency angled blade design ensures optimal air circulation for improved climate control.

Design & Build

Blade Configuration	3-blade design
Construction	Industrial Grade, Heavy-duty, Robust
Mounting Type	Floor-standing vertical mount
Finish Color	Green
