

Industrial Fluid Transfer Pump

This industrial pump is designed for heavy-duty fluid transfer. It features a robust construction with flanged connections for secure piping.

Overview

Industrial Fluid Transfer Pump

This industrial-grade fluid transfer pump is engineered for heavy-duty applications requiring reliable and efficient liquid handling. Featuring a robust, durable construction with a specialized blue-painted exterior, it is built to withstand demanding industrial environments. The design includes precision-engineered flanges for secure, leak-free integration into complex piping systems, while the intuitive top-mounted adjustment knob allows for precise process control.

Technical Specifications

Port Configuration

- Angled inlet
- Vertical outlet

Control Mechanism

Manual adjustment knob

Construction Features

Heavy-duty, Flanged connections, Industrial grade
