

Industrial Fluid Transfer Pump

This industrial fluid transfer pump is engineered for efficient fluid transfer. Its durable construction ensures long-lasting performance in demanding applications.

Overview

Industrial Fluid Transfer Pump

This robust industrial fluid transfer pump is engineered for reliability in demanding environments, including tractors, engineering machinery, and generator sets. Designed to accommodate cylinder diameters ranging from 85 to 105 mm, it ensures consistent performance for heavy-duty applications. Its versatile configuration supports multiple cylinder counts and piston sizes to meet specific operational requirements.

Technical Performance

Key Performance Metrics

1600 r/min

Max Working Speed

40 Mpa

Allowable Pump Pressure

10 KW

Engine Power per Cylinder

Cylinder Configuration

- 2
- 3

Available Piston Diameters

6.5 mm, 7 mm, 7.5 mm, 8 mm, 8.5 mm

Available CAM Profiles

7 mm, 8 mm, 8.6 mm

Mechanical Specifications

Mechanical Dimensions

Parameter	Value
Engine Cylinder Diameter	85 - 105 mm
Cylinder from Heart	25 mm
Max Circulation Flow	75 mm ³

Applications

Compatible Machinery

Tractors • Engineering Machinery • Generator Sets
