

Industrial Fogging Machine

This fogging machine is designed for industrial applications. It is suitable for dust suppression and humidification in large areas.

Overview

Industrial Fogging Machine

This industrial-grade fogging machine is designed for efficient pest control and sanitization, offering a high-range spray with excellent coverage. It combines electric and manual starting modes for reliable operation in various conditions, ensuring time and labor savings. With its robust design and stable performance, it provides an effective solution for large-scale applications requiring minimal water usage and reduced pollution.

Performance Metrics

Key Performance Metrics

90 L/h

Average Spray Volume

2.5 L/h

Fuel Consumption

15 L

Medicine Tank Capacity

Technical Specifications

Dimensions & Weight

Attribute	Value
Overall Size	1160 x 200 x 325 mm
Empty Weight	10 kg

Operating Conditions

- Operating Temperature Range: -10°C to 30°C
- Fuel Type: 93# Pure Gasoline
- Power Supply: Lead-acid batteries

Start Mode

Electric Start, Manual Start

Features

Core Benefits

Time-saving • Labor-saving • Medicine-saving • Low Pollution • High Range Coverage
