

Industrial Forklift Truck

This industrial forklift is designed for lifting and moving heavy loads. It is suitable for use in warehouses, factories, and construction sites.

Overview

Industrial Forklift Truck

This compact industrial forklift is engineered for versatility, suitable for both indoor and outdoor operations in warehouses, factories, and construction sites. It features a robust chassis and a protective operator cabin with clear visibility for enhanced safety. Equipped with standard lifting mechanisms and high-visibility safety markings, it is designed to efficiently move heavy loads while maintaining operational security.

Operational Specifications

Integrated Safety Features

- Protective operator cabin
- Clear window visibility
- Safety barrier with warning stripes
- Warning lights

Usage Environment

Indoor, Outdoor, Warehouse, Factory, Construction Site

Design & Construction

Design Highlights

Compact Design • Robust Chassis • Standard Tires
