

Industrial Gearbox

This industrial gearbox provides efficient power transmission and optimal speed reduction. Constructed from durable materials, it ensures long-lasting reliability and resistance to wear and tear.

Product Overview

Industrial Gearbox Overview

This industrial gearbox is a high-quality machinery component engineered for robust performance and reliable power transmission. Designed for efficient speed reduction, it offers smooth and quiet operation, which helps minimize vibration and noise in mechanical systems. Its compact and durable construction allows for easy integration into various industrial applications, including washing machines, ensuring long-lasting reliability with minimal maintenance.

Technical Specifications

Speed Reduction Ratio	1:4
Wave Wheel Spline Size	1M×20R×11Z
Inner Gear Modulus	1M

Performance Metrics

Suitable Clothes Weight

5 KG

Max Load Capacity
