

Industrial Gearbox with Mounting Flanges

This heavy-duty gearbox is designed for industrial or off-road vehicle applications. It features a robust cast metal housing with multiple mounting flanges and connection points.

Product Overview

Industrial Gearbox Overview

This heavy-duty gearbox is engineered for demanding industrial and off-road applications. Featuring a robust cast metal housing, it is designed to withstand rigorous operational environments. The unit includes multiple mounting flanges and versatile connection points, ensuring reliable integration into complex mechanical systems.

Physical Properties

Surface Finish

Industrial Black Paint

Housing Material

Cast Metal

Mounting Configuration

Flange Mount, Multi-point Connection

Application

Primary Applications

- Industrial Machinery
- Off-road Vehicles
- Drivetrain Systems
