

# Industrial Glass Bowl with Textured Interior

This glass bowl is precision-engineered with a robust, circular design. Its textured interior surface is designed for applications requiring high tolerance and durability, such as mixing or grinding.

## Product Overview

### Industrial Precision Glass Bowl

This precision-engineered glass bowl is designed for demanding industrial and scientific applications. Featuring a robust circular construction with a specialized textured interior, it is built to withstand rigorous use. The concentric ring design and machined finish ensure high tolerance and durability, making it an ideal component for processes requiring precise surface interaction, such as mixing or grinding.

## Technical Specifications

Model Identifier	05-3
Primary Applications	Industrial, Scientific, Mixing, Grinding

## Design Features

Interior Surface	Textured • Concentric Rings • Machined Finish
Build Quality	High-tolerance robust construction
