

Industrial Heat Exchanger

These heat exchangers provide efficient cooling for various industrial applications. They are suitable for use in construction equipment, hydraulic systems, and power generation.

ADDITIONAL IMAGES

Product Overview

Industrial Cooling Solutions

These industrial heat exchangers are engineered to provide reliable thermal management across a wide range of demanding applications. Available in both bar-plate and tube-fin configurations, the units are designed for durability, flexibility, and efficient performance. They are suitable for integration into complex machinery systems, including heavy construction equipment and hydraulic stations, helping to optimize engine power and emission performance.

Design & Construction

Available Designs

- Bar-Plate Cooler (Flexible, long-lasting, cost-effective)
- Tube-Fin Cooler (Lightweight, reliable, mass-production ready)

Performance Features

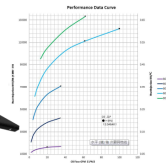

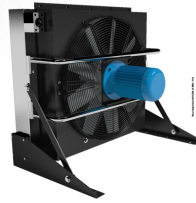

Low Noise, Low Vibration, Modular Design, Easy Maintenance

Applications

应用领域 APPLICATION

宏盛股份 HONGSHENG GROUP

- 工程机械 CONSTRUCTION EQUIPMENT
- 压缩机 COMPRESSOR
- 农用机械 AGRICULTURAL AND FORESTRY EQUIPMENT
- 低温/液化天然气/冷链 CRYOGENIC/COLD BOXES
- 铁路车辆 RAILWAY VEHICLES
- 商用车 COMMERCIAL VEHICLES
- 液压油冷却器 HYDRAULIC OIL COOLERS
- 发电机/发电机组 GENERATORS/GENSETS
- 卡车/客车 TRUCKS AND BUSES
- 清洁能源冷却 CLEAN ENERGY COOLING
- 空调控制系统 CLIMATE CONTROL SYSTEMS
- 风力发电 WIND POWER
- 其他工程 OTHER ENGINEERING

Wide range of industry applications supported by our heat exchanger technology.

Industry Applications

- Construction Equipment
- Compressors
- Agricultural and Forestry Equipment
- Cryogenic/LNG/Cold Boxes
- Railway Vehicles
- Commercial Vehicles
- Hydraulic Oil Coolers
- Generators/Gensets
- Trucks and Buses
- Clean Energy Cooling
- Climate Control Systems
- Wind Power

Technical Specifications

Hydraulic System Compatibility

Road Mobile Machinery • Hydraulic Stations • Transmission Systems • Engine Radiators • Intercoolers • Oil Coolers

Customization Options

- Electric Fans
- Hydraulic Drive Motors
- Electric Drive Motors
