

# Industrial High-Pressure Triplex Plunger Pump

This high-pressure triplex plunger pump is designed for industrial applications. It features a robust construction with a brass pump head and stainless steel plungers for durability and corrosion resistance.

## Product Overview

### Industrial High-Pressure Performance

The 3WZ-28WB industrial high-pressure triplex plunger pump is engineered for demanding fluid transfer and maintenance applications. Featuring robust construction with high-quality components, this unit ensures reliable operation for both irrigation and spraying tasks. With versatile power requirements ranging from 2 to 5 HP, it provides flexible deployment options for professional environments.

## Technical Specifications

### Required Power

**2 HP**

Minimum Power

**5 HP**

Maximum Power

Spray RPM	750 RPM
Irrigation RPM	1100 RPM
Piston Configuration	3 Pistons, 28mm Diameter, 22mm Stroke

## Performance Data

### Operating Parameters

Function	Suction (L/min)	Pressure (MPa)
Spray	28-33	1.5-3.5
Irrigation	40-49	1.5-3.5

## Logistics

Carton Dimensions	43 x 32 x 36 cm
Net Weight	14.5 kg
