

Industrial High-Pressure Triplex Pump

This high-pressure triplex pump is designed for industrial applications requiring consistent performance. It features a cast iron pump body, brass manifold, and stainless steel valves for enhanced durability and corrosion resistance.

Overview

Industrial Performance Overview

The 3WZ-70W Industrial High-Pressure Triplex Pump is a robust solution engineered for demanding cleaning, spraying, and irrigation tasks. Featuring a durable cast iron body with a brass manifold and stainless steel valves, this unit is built to withstand corrosive environments while delivering consistent output. Designed for versatile power requirements, it excels in both agricultural irrigation and high-intensity industrial maintenance operations.

Technical Specifications

Performance Metrics

Application	RPM	Flow Rate (L/min)	Pressure (MPa)
Spray	500-600	38.5-46	1.5-3.5
Irrigation	800-1000	62-77	1.0

Required Power

2 HP Minimum Power	7 HP Maximum Power
------------------------------	------------------------------

Piston Configuration	3 Pistons x 32mm Diameter x 22mm Stroke
----------------------	---

Physical Dimensions

Weight	24 KGS
Packaging Dimensions	45 x 34 x 46 cm
