

Industrial High-Velocity Drum Fan

This high-velocity drum fan is designed for industrial and commercial applications, providing powerful airflow for ventilation and cooling. Featuring a heavy-duty construction with a robust metal frame and durable fan blades, it ensures long-lasting performance in demanding environments.

Overview

Industrial High-Velocity Performance

This high-velocity drum fan is engineered for demanding industrial and commercial environments, delivering powerful airflow for effective ventilation and cooling. Built with a robust metal frame and durable blades, it offers exceptional longevity and reliability in workshops, warehouses, and large open spaces. Its portable design, featuring integrated wheels and adjustable tilt, ensures versatile airflow management exactly where you need it.

Performance

Performance Specs

36 inches

Blade Diameter

3 levels

Speed Settings

Airflow Type

High-Velocity

Design & Build

Mobility

- Integrated heavy-duty wheels
- Adjustable tilt head
- Easy-grip handle

Build Materials

Heavy-duty Metal, Reinforced Steel Frame

Applications

Ideal Environments

Warehouses • Factories • Workshops • Commercial Spaces
