

Industrial Hydraulic Trolley Cart

This hydraulic trolley cart is designed for industrial material handling. It is available in two models with maximum load capacities of 300kg and 500kg.

Overview

Industrial Hydraulic Lifting Solutions

This heavy-duty hydraulic trolley cart is designed for efficient material handling in industrial environments. Available in two robust configurations, it features a foot-pedal operated hydraulic lift system that allows for precise height adjustment. Built for durability and ease of use, these carts are essential for lifting and transporting heavy loads with minimal operator effort.
