

Industrial Jeans Washing Machine

Industrial washing machine designed for processing jeans and other heavy-duty fabrics. Features a large capacity drum, robust construction, and programmable wash cycles for efficient and consistent cleaning.

Product Overview

Industrial BX Series Washing Machine

The BX series is a high-performance industrial washing machine designed for demanding environments like hotels, commercial laundries, and textile manufacturing plants. Featuring a durable horizontal structure with a high-quality stainless steel drum and frame, it offers efficient, low-noise operation for heavy-duty fabrics including jeans and wool. With versatile heating options and a wide capacity range from 15kg to 400kg, this semi-automatic system provides reliable cleaning performance for large-scale garment and apparel processing.

Technical Specifications

Capacity Range	15kg to 400kg
Heating Options	Steam, Electrical
Machine Structure	Horizontal
Operation Mode	Semi-automatic

Compliance

Certifications

CE • ISO 9001

Model Comparison

Model Specifications

Model	Capacity (kg)	Drum Size (mm)	Weight (kg)
BX-15	15	!540*680	260
