

Industrial Jeans Washing Machine

This industrial jeans washing machine is designed for heavy-duty cleaning. It features a stainless steel drum and programmable controls for customized wash cycles.

Product Overview

Industrial Jeans Washing Machine (BX Series)

The BX series industrial washing machine is engineered for heavy-duty commercial use, featuring a robust horizontal structure with a high-quality stainless steel drum and frame. Designed for versatility, it supports both steam and electrical heating, making it an ideal solution for hotels, restaurants, laundry houses, and garment manufacturing facilities. With a wide capacity range from 15kg to 400kg, this semi-automatic washer delivers high efficiency, low consumption, and quiet operation.

Technical Specifications

Capacity Range	15kg to 400kg
Heating Methods	Steam, Electrical
Construction Material	Stainless steel
Operation Type	Semi-automatic

Compliance & Standards

Certifications

CE • ISO9001
