

Industrial Joystick Handle with Pushbutton Switch

This industrial joystick handle features an integrated pushbutton switch. Constructed from durable plastic, it is designed for reliable operation in demanding environments.

Overview

Industrial Control Interface

This industrial joystick handle and pushbutton switch is designed for reliable operation in demanding electrical control environments. Constructed with high-grade anti-flame plastic and zinc alloy, it features special silver alloy contacts for superior resistance to electrical erosion. It is suitable for controlling circuits in machinery, automation systems, and industrial control panels, ensuring precise and comfortable operator input.

Technical Specifications

Rated Insulation Voltage	AC 600V (50Hz/60Hz)
Conventional Heating Current	10 A
Insulation Resistance	e5M©
Contact Resistance	d2h©
Withstand Voltage	AC 2.5KV/min

Performance Metrics

Mechanical Life

1000000 cycles
Pushbutton

500000 cycles
Selector Switch

Electrical Life

5000000 cycles
Pushbutton

250000 cycles
Selector Switch

Certifications & Standards

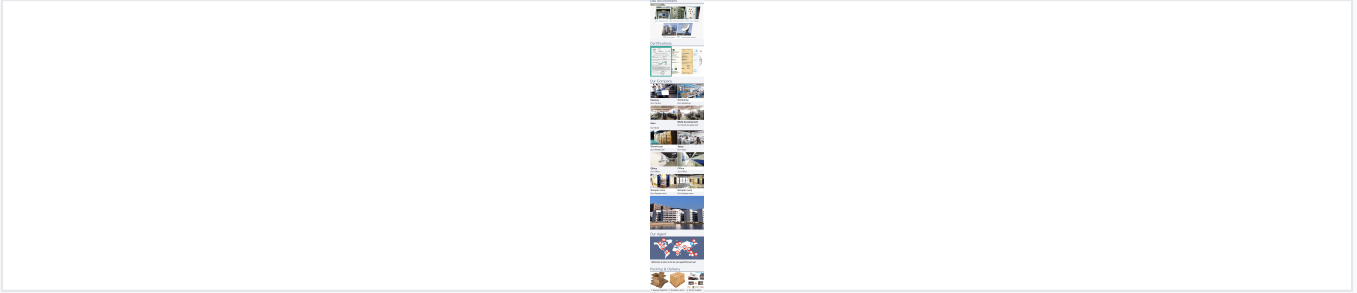

Compliance Standards

- GB/T14048.1
- IEC60947-5-1

Certifications

CE • ISO 9001 • RoHS • UL

Applications

Versatile application in distribution cabinets, control panels, and power stations.

Suitable Environments

Distribution Boxes, Control Cabinets, Power Stations, Communication Networks
