Product Overview

Industrial-Grade Label Printing Solution

This high-performance industrial label printer is engineered for demanding environments where reliability and precision are paramount. Featuring a 203dpi resolution, it delivers clear, high-quality output suitable for barcodes, QR codes, and compliance labeling. With versatile connectivity options including Ethernet and Wi-Fi, this unit integrates seamlessly into existing network infrastructures for efficient, high-volume operations.

Technical Specifications

Print Resolution	203 dpi
Firmware Version	1.2.8
Emulation Mode	AUTO

Connectivity

Default Network Configuration

Interface	IP Address
Ethernet	192.168.123.100
Wi-Fi	192.168.123.101

Network Interfaces	Ethernet, Wi-Fi
--------------------	-----------------

Compliance & Standards

Compliance Markings

CE • FCC Class A
