

Industrial Laser Distance Meter

This laser distance meter is designed for industrial use. It features multiple measurement modes, a clear display, and durable construction for demanding environments.

Product Overview

Professional Industrial Laser Distance Meter

This high-precision industrial laser distance meter is engineered for demanding professional environments. It offers comprehensive measurement capabilities including distance, area, volume, and Pythagorean calculations, all supported by an integrated angle sensor. Designed for durability, the device features an IP65 waterproof rating and robust drop-resistance, ensuring reliable performance on job sites.

Measurement Capabilities

Measuring Range	80 m
Accuracy	2 mm
Measurement Modes	Distance, Area, Volume, Pythagorean, Angle, Addition/Subtraction

Technical Specifications

Data Storage	20 groups
Display	2 inch White-on-black screen
Power Requirements	3 x AAA 1.5V Batteries
Battery Life	5000 measurements

Physical Attributes

Durability
IP65 Waterproof • Drop-resistant

Supported Units

- m
- ft
- in

Dimensions 115 x 49 x 26 mm
