Overview

Industrial LED High Bay Solution

This high-performance LED high bay fixture is engineered for demanding industrial and commercial environments, including warehouses, factories, and large retail spaces. The robust circular design incorporates advanced heat sink fins for superior thermal management, ensuring extended operational lifespan and consistent performance. With versatile configuration options such as dimming capabilities and remote control, this fixture provides efficient, high-intensity illumination tailored to your specific facility needs.

Performance Metrics

Luminous Efficacy

190 LM/W
Max Efficiency

Technical Features

Available Options	Remote Control, Dimmable, Lens Option, Glass Option
Color Availability	Multiple colors available for option

Design & Build

Construction Highlights

- Robust circular design
- Integrated heat sink fins for thermal management
- Central mounting loop for suspension
- Sleek dark gray/black finish
