

Industrial LED High Bay Light

This LED high bay light is designed for industrial and warehouse environments. Its UFO-shaped design allows for wide-angle light distribution, minimizing shadows.

Overview

Industrial LED High Bay Lighting

The GK08 series is a high-performance industrial UFO high bay light designed for demanding warehouse and factory environments. Engineered with a durable, modular construction and an IP66 rating, it ensures reliable operation against dust and water ingress. Featuring advanced thermal management and high-quality components, this fixture provides uniform, efficient illumination with optional smart sensor integration for optimized energy savings.

Performance

LEADING HIGH-QUALITY LEDs
Higher luminous efficiency Lumileds
3030 LEDs

Utilizes high-efficiency 3030 LED chips for bright and uniform illumination.

Key Performance Metrics

Physical & Construction

Engineered for superior thermal conductivity with a fin-type die-casting aluminum heat sink.

Industrial Hook Details

- Material: American Standard AISI316
- Weight Capacity: 350kg

Key Features

IP66 Rated • Water & Dust Proof • Daylight Sensor • Motion Sensor • Modular Design

Technical Specifications

Model Specifications

Model	Power (W)	Lumen Output (Lm)
GK08C-1001	100	10000
GK08C-1201	120	12500
GK08C-1501	150	15000
GK08C-1701	175	17500
GK08C-2001	200	20000

Electrical Requirements

- Voltage: AC200-240V
- Frequency: 50/60Hz
- Color Temperature: 3000-6500K
