

Industrial LED High Bay Light Fixture

This industrial LED light fixture features a robust design suitable for demanding environments. It comprises a black housing with a hook for suspension, connected to a reflective aluminum shade.

Overview

Industrial High-Performance Illumination

This industrial LED high bay light fixture is engineered for demanding environments where reliability and high-intensity lighting are essential. Featuring a robust black housing and a high-efficiency reflective aluminum shade, it provides consistent and long-lasting illumination. The integrated suspension hook ensures straightforward installation in warehouses, manufacturing plants, and large-scale industrial facilities.

Design & Construction

Housing Material	Robust Industrial Grade
Finish Color	Black
Mounting Method	Suspension Hook
Reflector Material	Aluminum

Key Features

Light Source	LED • High Intensity
Recommended Applications	Warehousing, Manufacturing, Industrial Facilities
