

Industrial LED Linear Light Fixture

This high-performance LED linear light fixture is designed for industrial and commercial applications. Its robust, weatherproof enclosure features an integrated heat sink, ensuring optimal thermal management and a long lifespan.

Overview

Industrial-Grade LED Illumination

This high-performance LED linear light fixture is engineered for demanding industrial and commercial environments. Designed with a robust, weatherproof enclosure and an integrated heat sink, it ensures optimal thermal management and a long operational lifespan. It delivers uniform, energy-efficient lighting across a wide beam angle, making it an ideal solution for warehouses, parking garages, and challenging outdoor areas.

Key Features

Key Benefits

- Weatherproof enclosure for harsh environments
- Integrated heat sink for thermal management
- Uniform and energy-efficient light output
- Low-maintenance design
- Easy installation process

Applications

Suitable Environments

Warehouses, Parking Garages, Outdoor Areas, Industrial Facilities, Commercial Spaces

Design

Construction

Robust • Weatherproof • Durable
