

Industrial Material Cut-Off Machine

This machine tool is designed for cutting various materials with precision. It utilizes a high-speed cutting wheel and a clamping mechanism to ensure accurate cuts.

Overview

Industrial Material Cut-Off Machine

The CS-250 is a robust, high-performance machine tool engineered for precision material cutting in industrial and workshop environments. Featuring a high-speed cutting wheel protected by a safety guard and a reliable clamping mechanism, it ensures clean, accurate cuts while prioritizing operator safety. Its sturdy base and ergonomic design provide the stability and control necessary for demanding daily operations.

Technical Specifications

Model	CS-250
Item Code	388021

Cutting Capacity

Cutting Capacity

Orientation	Circular (mm)	Rectangular (mm)
90°	70	55x95
45°	65	55x65

Performance

Performance Metrics

250 mm

Max Blade Size

52 RPM

Blade Speed (Low)

104 RPM

Blade Speed (High)

Motor Power	0.95 / 1.32 KW
