

Industrial Material Handling Elevator

This elevator is designed for heavy-duty material handling in industrial settings. It features a robust lifting mechanism and spacious platform, ensuring efficient and safe vertical transportation of goods.

Overview

Industrial Material Handling Solution

This heavy-duty elevator is engineered specifically for demanding industrial environments such as construction sites and large-scale warehouses. It features a robust lifting mechanism paired with a spacious platform designed to accommodate substantial cargo loads safely. Built for stability and maneuverability, this unit includes a protective cabin for the operator and sturdy tires to ensure reliable performance across various terrains.

Key Metrics

Core Features

Heavy-Duty • Operator Cabin • High Stability

Model	XG S560
Primary Applications	Construction Sites, Warehousing, Industrial Material Handling

Technical Specifications

Design & Construction

- Robust lifting mechanism
- Spacious cargo platform
- Protective operator cabin
- High-stability tire system
