

Industrial Metal Fabrication Machinery

This heavy-duty machinery is designed for industrial metal fabrication. It features a robust construction and an integrated control panel.

Overview

Industrial Metal Fabrication Excellence

This heavy-duty metallic processing machinery is engineered for demanding industrial fabrication environments. It features a robust construction designed for longevity and consistent performance across various welding and metal processing tasks. Equipped with an integrated control panel, it offers precise operation through intuitive meters and adjustment controls.

Technical Specifications

Build Quality

Heavy-duty • Robust Construction

Model Number	FDC-1000
Application	Industrial, Metal Fabrication, Welding

Control & Interface

Control Features

- Integrated control panel
- Analog measurement meters
- Precision adjustment knobs
- Multiple output ports
