Overview

Industrial-Grade Reliability

These industrial-grade SD cards utilize MLC flash memory technology, ensuring stable performance and high endurance in demanding environments. Designed for automotive electronics, they support reliable recording across a wide temperature range. Available in multiple capacities, these cards are ideal for mobile DVRs, ADAS, and 360° around-view systems.

Technical Specifications

Available Capacities

- 32GB
- 64GB
- 128GB

Flash Memory Type

MLC

Operating Temperature

-25°C ~ 85°C

Applications

Compatible Systems

Mobile DVRs, 360° Around View Camera Systems, ADAS, Vehicle Monitors
