

Industrial Molded Case Circuit Breaker

This molded case circuit breaker is designed for industrial applications. It provides overload and short-circuit protection for electrical circuits used in various machinery and industrial equipment.

D160

Product Overview

Industrial Molded Case Circuit Breaker

This Industrial Molded Case Circuit Breaker (MCCB) is engineered for robust performance in demanding electrical environments. It provides essential overload and short-circuit protection for complex electrical circuits, ensuring safety and operational reliability. Designed for versatility, this unit is suitable for integration into a wide array of industrial machinery and equipment.

Technical Specifications

Rated Current

160 A

Rated Current

Suitable Applications

- Industrial Machinery
- Electrical Equipment
- Power Distribution Systems

Construction

Robust Design • Industrial Grade

Protection Features

Overload Protection, Short-circuit Protection
