

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is designed for manufacturing garments, shoes, and accessories. The robust machine provides high-speed stitching and precise edge finishing for various fabric types.

Overview

Industrial Overlock Performance

This industrial overlock sewing machine is engineered specifically for high-volume manufacturing environments, including garment, shoe, and accessory production. Designed for durability and consistent output, it delivers high-speed stitching capabilities essential for professional workshops. Its robust construction ensures reliable edge finishing across a wide range of fabric types.

Technical Specifications

Primary Applications	Garment Manufacturing, Shoe Production, Accessories, Edge Finishing
Machine Type	Industrial Overlock
