

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is designed for manufacturing garments, shoes, and accessories. The machine features robust construction and precise stitching capabilities, ensuring efficient and high-quality production for various fabrics and materials.

Overview

Industrial Overlock Performance

This high-performance industrial overlock sewing machine is specifically engineered for the rigorous demands of garment and footwear manufacturing. Featuring a robust construction, it delivers precise stitching capabilities that ensure consistent, high-quality production across a wide range of fabrics and materials. Designed for efficiency and durability, this machine is an essential asset for professional apparel and accessory production lines.

Machine Details

Machine Type

Industrial • Overlock

Model Number

TY-GN6000-7D

Primary Applications

Garment Manufacturing, Footwear Production, Accessories Manufacturing
