

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is designed for high-speed and precise stitching. It is suitable for various fabric types in garment, shoe, and accessory manufacturing.

Product Overview

Industrial Overlock Sewing Machine

This industrial overlock sewing machine is engineered for high-speed, precise stitching across a variety of fabrics used in garment, shoe, and accessory manufacturing. It features a robust motor designed for continuous operation in professional textile production facilities. With advanced controls like differential feed and adjustable stitch settings, it ensures consistent quality and efficiency for high-volume manufacturing environments.

Key Features

Operational Features

- Differential feed mechanism to prevent puckering
- Differential feed mechanism to prevent stretching
- Robust motor for continuous operation
- User-friendly interface

Stitching Capabilities

Multi-thread, Adjustable stitch length, Adjustable stitch width
