

Industrial Overlock Sewing Machine for Garments and Shoes

This industrial overlock sewing machine is designed for manufacturing garments, shoes, and accessories. It delivers high-speed stitching and precise edge finishing for various fabrics and materials.

Overview

Industrial Overlock Sewing Machine (HD257)

This high-performance industrial overlock sewing machine is engineered specifically for the rigorous demands of garment, shoe, and accessory manufacturing. It delivers high-speed stitching and precise edge finishing, making it a reliable asset for professional production environments. With features like adjustable stitch settings and a built-in lubrication system, it ensures consistent quality and operational longevity across various fabrics.

Technical Specifications

Machine Type

Industrial • Overlock

Model Identifier

HD257

Key Features

Operational Capabilities

- High-speed stitching
- Precise edge finishing
- Adjustable stitch length
- Adjustable stitch width
- Differential feed system
- Built-in lubrication

Suitable Applications

Garments, Shoes, Accessories

Performance

Differential Feed Benefit

Prevents puckering or stretching of fabrics during the sewing process.
